5 reasons why you should join the ASAPbio Fellows program

A six-month program that provides tools and skills to drive discussions about preprints and equips participants to become ASAPbio representatives.

1. Learn more about preprints
   Learn about the latest trends in preprint use and how preprints can benefit your research.

2. Network
   Connect with others in the research community and beyond.

3. Make your project a reality
   Fellows work on dedicated projects, according to their areas of expertise and interest.

4. Gain confidence
   Gain tips and skills to drive conversations about preprints.

5. Build experience
   85% of participants were very satisfied with the program.
